**RIG-P000814**

<b>Öffentlicher Titel</b>	Phase II Studie zu Ruxolitinib bei Steroid-refraktärer akuter Graft-vs-Host Erkrankung
<b>Wissenschaftl. Titel</b>	Multicenter, randomizied Phase 2 trail to determine the Response Rate of Ruxolitinib and Best Available Treatment (BAT) versus BAT in Steroid refractory acute Graft-versus-host Disease (aGvHD)
<b>Kurztitel</b>	RIG-P000814
<b>Studienart</b>	multizentrisch, Therapiestudie, randomisiert, offen/unverblindet, zweiarmig, kontrolliert, Investigator Initiated Trial (IIT)
<b>Studienphase</b>	Phase II
<b>Erkrankung</b>	Blut: Stammzelltransplantation: Transplantat-gegen-Wirt-Reaktion (GvHD)
<b>Einschlusskriterien</b>	<ul style="list-style-type: none"><li>- Acute skin, intestinal or liver GvHD &gt; grade 1 according to standard criteria</li><li>- Histological confirmation in case of acute intestinal GvHD</li><li>- Age &gt;=18 years</li><li>- Failure of previous treatment, defined as presence of at least one of the following criteria:<ul style="list-style-type: none"><li>- a. Treatment with prednisone/prednisolone/methylprednisolone in a dose of at least 2 mg/kg and lack of response after at least 7 days treatment</li><li>- b. Treatment with prednisone/prednisolone/methylprednisolone in a dose of at least 2 mg/kg and progression after at least 3 days of treatment</li><li>- c. Failure to taper the prednisone/prednisolone to 0.6 mg/kg/day or methylprednisolone dose to &lt;0.5 mg/kg/day</li></ul></li><li>- Written informed consent</li><li>- Ability to understand the nature of the study and the study related procedures and to comply with them</li></ul>
<b>Ausschlusskriterien</b>	<ul style="list-style-type: none"><li>- Uncontrolled underlying disease</li><li>- Active bleeding</li><li>- Absence of clinical signs of acute GvHD</li><li>- Diagnostic or distinctive clinical signs of chronic GvHD</li><li>- Uncontrolled bacterial, viral or fungal infection</li><li>- Any previous JAK2 inhibitor treatment prior to study enrolment, except Ruxolitinib given prior to the allogeneic stem cell transplantation</li><li>- Known Hypersensitivity to Ruxolitinib or any of the excipients</li><li>- Known positivity for HIV, Hepatitis B or Hepatitis C at the time of screening.</li><li>- Female patients who are pregnant or breast feeding</li><li>- Concomitant use of any other investigational drug within the last thirty days before the start of this study</li></ul>
<b>Alter</b>	18 Jahre und älter
